Skillbox

2024 — Incident Response
Codeby Academy

2023 — Bash & Sysadmin
Stepik

2023 — Linux Administration
SFU Digital

PROFILE

Technical Support Specialist with experience in fintech, web3, and information security. Worked with transaction-based systems (deposits, withdrawals, conversions, API integrations) and handled complex L2 incidents including stuck transactions, API errors, and refunds. Skilled in log analysis, SQL, API debugging (Postman), and monitoring (Grafana, Zabbix). Additional SOC background. Interested in automation — writing scripts to simplify workflows. Looking for a remote L1/L2 or adjacent technical role with growth into DevOps / SRE / infrastructure.

EXPERIENCE

Technical Support Engineer (L1→L2)

Evercode Lab (ChangeNOW) — Remote
March 2025 – April 2026

— Handled user and partner requests via Zendesk, Telegram, Slack (transactions, API questions)
— Initial diagnostics; escalated complex cases to L2/L3 and QA
— Collaborated with Legal & Compliance on AML-related cases
— Investigated complex L2 incidents: stuck transactions, conversion errors, refunds, partner API failures
— Root-cause analysis via PostgreSQL, Grafana, Zabbix logs, and Postman
— Escalated to L3/dev with detailed reproduction steps and log excerpts
— Technical bridge between Dev, QA, Compliance, and Account Management
— Maintained knowledge base in Confluence; onboarded new team members
— Contributed to support workflow improvements and automation proposals

SOC Analyst (L1)

NII Spetsvuzavtomatika — Rostov-on-Don
June 2024 – November 2024

— Monitored and triaged security alerts; SIEM: Wazuh, MaxPatrol SIEM, SearchInform
— Administered KAV, KSMG, and honeypot traps; traffic analysis via Netflow, Wireshark, PTAF
— VM administration via VMware vSphere / SSH; network perimeter monitoring
— Onboarded and trained new team members on SOC tools and workflows
— Incident escalation and documentation in Jira, Confluence, Redmine
