Codeby Academy

2023 — Bash & Sysadmin
Stepik

2023 — Linux Administration
SFU Digital Dept

PROFILE

Technical Support Specialist with experience in fintech, web3, and information security. Worked with transaction-based systems (deposits, withdrawals, conversions, API integrations) and handled complex L2 incidents. Skilled in log analysis, SQL, API debugging (Postman), and monitoring (Grafana, Zabbix). Additional SOC background. Looking for a remote L1/L2 or adjacent technical role with growth into DevOps / SRE / infrastructure.

EXPERIENCE

L2 Engineer

Evercode Lab (ChangeNOW) — Remote
January 2026 – April 2026

— Investigated complex incidents: stuck transactions, conversion errors, refunds, partner API failures
— Root-cause analysis via PostgreSQL, Grafana, Zabbix logs, and Postman
— Escalated to L3/dev with detailed reproduction steps and log excerpts
— Technical bridge between Dev, QA, Compliance, and Account Management
— Contributed to support workflow improvements and automation proposals

L1 Support Specialist

Evercode Lab (ChangeNOW) — Remote
March 2025 – January 2026

— Handled user and partner requests (transactions, API questions) via chat
— Initial diagnostics; escalated complex cases to L2/L3 and QA
— Collaborated with Legal & Compliance on AML-related cases
— Maintained knowledge base; participated in onboarding new team members

SOC Analyst (L1)

NII Spetsvuzavtomatika — Rostov-on-Don
June 2024 – November 2024

— Monitored and triaged security alerts; SIEM: Komrad, Wazuh, MaxPatrol SIEM
— Web traffic analysis via PTAF; VM administration via VMware vCenter / SSH
— Network perimeter monitoring: IP checks, account validation, anomaly detection
— Incident escalation and documentation in corporate knowledge base
