Vitaly Vasilchenko

Technical Support Specialist (L1–L2), fintech & crypto → moving into infrastructure · Remote

qbwrkr@gmail.com | Telegram: @qbwrkr | GitHub: github.com/danarieel | Site: danarieel.github.io

PROFILE

Technical Support Specialist in fintech and web3 with a SOC background. Worked on transaction systems (deposits, withdrawals, conversions, API integrations) and resolved complex L2 incidents: stuck transactions, API errors, refunds.

Moving into infrastructure and building hands-on projects: Linux (systemd, nginx, cron), Docker Compose, PostgreSQL + Grafana, Bash automation. Looking for a remote junior role in infrastructure or technical operations, or an L2/ops support role with a path into infrastructure.

PROJECTS

bash-report 2026

Bash · awk · cron · github.com/danarieel/bash-report

– Script that summarizes an nginx access.log: request count, status codes, top URLs and IPs
– Runs on a schedule via cron and writes the report to a file

Home lab 2026 – present

Linux · OpenWrt · Docker · LXC

– Flashed a home router with OpenWrt
– Ran apps in containers: LXC on Linux, Docker on Windows

EXPERIENCE

Technical Support Engineer (L1→L2) Mar 2025 – Apr 2026

Evercode Lab (ChangeNOW) — Remote

– Handled 30–50 user and partner requests per day (80+ on peak days) via Zendesk, Telegram, Slack within SLA: first response up to 3 min, follow-ups up to 10 min; initial diagnostics and escalation to L2/L3 and QA
– Investigated complex L2 incidents (stuck transactions, conversion errors, refunds, partner API failures): root-cause analysis via PostgreSQL, Grafana / Zabbix logs, and Postman; escalated to L3/dev with reproduction steps and log excerpts
– As L2: closed tasks escalated from L1; tracked exchange notices (deposit/withdrawal suspensions, maintenance) and assessed the impact on our service, since liquidity is sourced from exchanges
– Proposed a refund rule for deposits missing the required identifier (memo); it became the team standard
– Proposed categorizing Zendesk chats by request type; the team lead later rolled it out
– Worked with Legal & Compliance on AML-related cases; technical bridge between Dev, QA, Compliance, and Account Management
– Maintained the knowledge base in Confluence; trained two team members
– Kept KPI metrics at a high level

SOC Analyst (L1) Jun 2024 – Nov 2024

NII Spetsvuzavtomatika — Rostov-on-Don

– VM administration via VMware vSphere / SSH; network perimeter monitoring
– Administered KAV, KSMG, and honeypot traps; network traffic analysis via Netflow, Wireshark, PTAF
– Monitored and triaged security alerts; SIEM: Wazuh, MaxPatrol SIEM, SearchInform
– Incident escalation and documentation in Jira, Confluence, Redmine
– Onboarded and trained new team members on SOC tools and workflows

SKILLS

Database
SQL / PostgreSQL

API
REST / Postman

Monitoring
Grafana / Zabbix

Security
Komrad / Wazuh / MaxPatrol / PTAF / Wireshark

Infrastructure
Linux (systemd, nginx, cron) / Docker, Docker Compose, LXC / VMware vSphere / SSH

Automation
Bash / Git / GitHub

Tools
Jira / Confluence / Zendesk / Slack / Blockchain Explorers

Domain
Fintech / Crypto / Web3

Languages
English B2 / Russian Native

EDUCATION

2020 – 2024
Applied Mathematics & CS (Incomplete)
Southern Federal University

COURSES

2024 · Codeby Academy
Incident Response

2023 · Stepik
Bash & System Administration

2023 · SFU Digital Dept
Linux Administration
